

# WORKSHOP

MARCH 22-23, 2018

CNR ROME, ITALY

## The use of nanomaterials for the protection of modern bronze and plastic works of art (results achieved in the WP4)

Multifunctional nanostructured materials can revolutionize the preservation methods by offering advanced and innovative solutions.

### 2 WORKSHOP SECTIONS:

- Theoretical and application aspects of nanomaterials
- Application methods and use of nanostructured coatings

First announcement. Further information will be soon available at CNR websites (as [www.ismn.cnr.it](http://www.ismn.cnr.it) and [www.ipcb.cnr.it](http://www.ipcb.cnr.it))

This project has received funding from the European Union's Horizon 2020 research and innovation programme under the grant agreement No 646063
